## SUMMARY

Motivated and detail-oriented Computer Science student with a strong foundation in web development. Passionate React developer with practical experience in creating dynamic and responsive web applications. Proficient in state management, component-based design and API integration. Ready to apply my project experience and skills to contribute to company.

## KEY SKILLS

- **Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Frontend Development:** React Ecosystem, Tailwind CSS, DOM Manipulation, AJAX, Async JavaScript, REST APIs, CRUD Operations, User Authentication & Authorization
- **Libraries & Tools:** Redux ToolKit, Git, GitHub, Webpack, Babel, NPM/Yarn
- **Backend:** NodeJS, Firebase
- **Database:** MongoDB, Firestore
- **Other:** Responsive Web Design, Cross-Browser Compatibility, Performance Optimization

## KEY DEVELOPMENT PROJECTS

- **NetflixGPT | [Live Demo](#)**  
*Tech Stack: ReactJS, Firebase, Redux ToolKit, TMDB API, ChatGPT API*
  - Integrated ChatGPT API to enable users to ask movie-related questions and receive intelligent responses.
  - Designed and implemented algorithms for sequential API calls and data combination, optimizing data retrieval and processing for improved application performance.
  - Developed a robust user authentication and authorization system with secured routes.
  - Utilized forwardRef to fetch and control child components' state from parent components, demonstrating expertise in both controlled and uncontrolled components.
- **Movix Web App | [Live Demo](#)**  
*Tech Stack: ReactJS, SCSS, Firebase, AJAX, Axios, React Player, Redux*
  - Developed a movie search application using React and TMDB API.
  - Implemented user authentication, dynamic content loading, and pagination for seamless navigation.
  - Optimized image loading using lazy load techniques to enhance performance.
- **Google Gemini Clone | [Live Demo](#)**  
*Tech Stack: HTML, CSS, JavaScript, React, Context API, Tailwind CSS*
  - Integrated Gemini API for fast and accurate search results.
  - Developed real-time dynamic content display with a focus on user experience.
- **Figma To Code | [Live Demo](#)**  
*Tech Stack: React, Figma, HTML5, CSS3, Tailwind*
  - Translated Figma designs into pixel-perfect, responsive web pages.
  - Employed modern CSS techniques for dynamic and reusable component creation.

## EDUCATION

Master of Science in Computer Science	Dec '23 - Aug '25
UpGrad & Woolf University   Expected Completion: Aug '25	
Bachelor of Science	Jun '16 - Oct '19
Allahabad State University   Completed: Sep '19	
Acheivement: Cleared 2 Times Service Selection Board Screening Test.
